In the United States Patent and Trademark Office

Appn. Number: 10/760,156
Parent Appn. 10/007,489 Filed: 12/05/2001
Applicant: Elizabeth Gay Frayne
Title: Use of a Modified Phosphate for Enhancing the Natural Mutation
Rate in Bacteria and Mutating Recombinant DNA Phage Inserts.
Examiner: Nancy Vogel
Art Unit:1636

Assistant Commissioner for Patents
Washington, District of Columbia 20231

RE: Substitute Oath

In response to the examiner's notice of allowance a request was made for a new oath. The request was required because the patent application during prosecution became a continuation-in-part application necessitating a new oath. I have filled out the form required for this and have enclosed it. I will send the issue fee separately.

Respectfully submitted,

Elizabeth Frayne
